RODRIGO FIGUEREDO

ARCHITECT

PROFILE

Architect graduated from the college of Architecture, Design and Urbanism, UdelaR.

I worked in different specialties of architecture, in a public and private level.

Currently I am an architect at Gomez Platero studio in Uruguay, Montevideo. Founder of "Imago", an architectural visualization studio with base in Montevideo. I specialize in architectural projects, developing their different stages, from the first sketches and their initial concept, to their planning, budgeting, development and final materialization.

I have been study computer programming, for about 2 years, merging logical and creative knowledge in order to optimize processes and find solution in a more effective way for different projects.
